information in this section here:

## Working with Animals: N

## **Procedures, Risks & Benefits:**

4.25	Does your research have the potential to cause environmental damage or harm? (This includes the use of equipment, materials, techniques or research results that could have an impact on the environment, ecology, hydrology or on local communities during or after the research project)	No
4.26	Does your research involve the use of genetically modified organisms?	No
4.28	Does your research involve accessing, collecting, or utilising genetic resources or traditional knowledge associated with biodiversity, potentially necessitating compliance with the Nagoya Protocol on Access and Benefit Sharing?	No
4.29	Does your research pose a risk of damage or disturbance to places of cultural, spiritual or historical significance?	No
4.30	Does your research involve working with any controlled substances and / or equipment which may be considered hazardous?	No
4.31	Does the researcher have any direct involvement with any third party (i.e. gatekeeper, funder or collaborator) that may cause a potential conflict of interest?	No

## **Data & Sensitive Research**

Do you intend to utilise data that is not publicly available?
